

Albuquerque Bernalillo County Water Utility Authority

Local businesses, win Industrial Pretreatment / Pollution Prevention (p2) Excellence awards!!

On February 22, 2006, Doug Dailey presented Excellence Awards to two businesses during an Albuquerque Bernalillo Water Utility Authority Board Meeting. Both Albuquerque Publishing Company and Sennheiser NM received awards for their outstanding efforts in pollution prevention and waste minimization. Each year, our Industrial Pretreatment/Pollution Prevention Section selects industries that have made significant efforts in protecting the environment through recycling, waste reduction and through the elimination of industrial pollutant discharges to the sanitary sewer. We thank Albuquerque Publishing Company and Sennheiser for their efforts.

Sennheiser Plant Manager,
Joe Fortuin, accepting the
Pollution Prevention Award.

Robert Staehlin (Facilities Superintendent) and Rex Smith (Safety & Technical Coordinator)
received the Industrial Pretreatment Excellence Award for Albuquerque Publishing Company
